02 Plan

03 Implement

04 Validate

05 Support

GRAZETECH

INDIA

Records Management & Digital Solutions

Your partner in information management and digital transformation.

CORPORATE SERVICE BROCHURE

www.grazetech.in

SERVICES 01–02

Records & Digitization

01 Document Digitization

Convert physical documents into organized digital records.

- Scanning and digital organization
- Indexing and classification
- Searchable records and retrieval

02 Patient Record Tracking

Improve visibility and control over patient medical record movement.

- Issue and return workflows
- Department-wise movement tracking
- Record status and reporting

Outcome: Faster access to records and more accountable workflows.

SERVICES 03–04

MRD & Document Security

03 NABH & MRD Support

Support hospitals in organizing medical records and documentation practices.

- MRD workflow assessment
- Records organization and retrieval
- NABH-aligned documentation support

04 Document Shredding

Support controlled disposal of physical records under approved procedures.

- Document segregation
- Shredding workflow coordination
- Disposal documentation support

MRD support does not represent NABH certification or accreditation.

SERVICES 05–07

Digital Technology

05 Website Development

Modern, mobile-responsive websites for businesses.

- Corporate websites and catalogs
- Enquiry forms and redesign
- Deployment and support

06 Software Development

Custom applications for business operations.

- Workflow management systems
- Dashboards and reporting
- Records management applications

07 Cloud & Hosting

Infrastructure for accessible digital services.

- Cloud and VPS deployment
- Server, domain and SSL setup
- Storage and backup planning
