

GRAZETECH

Digitization

GRAZETECH is established with a vision to deliver technology and process automation need of businesses. and replace technology to where man in the middle of work. Who are struggling to come out of retrieve the information of their organization or company from.

In today's competitive business environment smooth and smart operation is a real time challenge, where companies are trying to save time, cost and synchronize the operation under a robust IT framework.

GRAZETECH will set up to manage documents and make function better in your day to day operations.

DIGITIZATION

Are you surrounded by stacks of files and can't find the information quickly?

GRAZETECH will help you digitize your documents and make it easier for you to search, access, retrieve and distribute the required information.

The access to information and documents is maintained in a secure and structured manner. You are in control to define the different access permissions to the data and documents within the document management system.

It is one of the most important reasons to go for document digitization services.

❖ Benefits of Digitizing of documents:

- Increase in productivity
- Cost savings
- Quick and easy access to documents
- Increase in security
- Preservation of information
- Disaster recovery
- Save and reduce space

Patient Health Record Tracking System is a web-based application, you can access the information by sitting anywhere. Information will be on your fingertips.

When documents are scanned, they can be easily tracked. If required, you can give access to only a few users to access documents. You can enhance the security of your documents and maintain the confidentiality by setting up permission groups. This is possible only with document digitization.

You can avoid any loss of time since several people can retrieve the documents from different places and departments in case of actual files and documents.

❖ Benefits of PHR Tracking System

- Improves the speed and performance of an organization's transactions
- Reduces the time it takes to search a file manually
- Reduces the chance of a file becoming lost

As per NABH Standards Implementation for Medical Records Department below mentioned Indicators.

1. Making Separate Medical Record Room.

2.

DOCUMENT SHREDDING

We are committed to providing professional, reliable, and cost-efficient secure document shredding services. Shredding paper is not only a safe and secure way of preventing valuable information from getting into the hands of the wrong people. It's is also a great way to contribute to helping the environment as we recycle the shredded paper.

WHY SHRED?

YOUR REPUTATION WILL BE AT STAKE IF YOU DON'T SHRED.

This is not a threat, but a sure possibility. Shredding benefits by:

- Securing and safeguarding your information
- Reducing cost of storage and management of hard copies
- Ensuring adherence to legal and compliance protocols
